

FROM BED RACK

For adventures and hardworking weekdays, our Freedom adjustable truck rack offers the highest quality performance of any rack on the market. Our Freedom Rack comes fully equipped with 4 heavy-duty towers, 2 long bed sidebars, and 2 heavy-duty crossbars. The ready to assemble kit comes with all necessary hardware and tools to get you out on the road in just one hour. The beauty of the Freedom Rack is the crossbar height can be adjusted to suit your needs: way up, for long loads to go over the cab—or down low, to get the rack out of the wind. The uprights are easy to take on and off in minutes, so the truck's only racked-up when needed. The weight capacity of the Freedom rack is up to 450 lbs off-road, and the dynamic static weight capacity goes up to 1350 lbs. This gives the consumer the freedom to mount awnings, rooftop tents, and whatever is needed on the trail. Also with multiple tie-down points and the ability to fit most truck beds, this rack has all the components to make your adventure on the trail something to remember.

ADJUSTABLE CROSS BARS
