PREMIUM 320G RIP STOP TENT BODY

CANTILEVER OPENING DESIGN

XD EVEREST

The XD Everest, a pinnacle in rooftop camping. These Extreme Duty tents feature an aircraft-grade aluminum shell for unparalleled durability, while the cantilever opening design transforms your compact tent into a spacious sleep haven. Crafted from premium 320G Rip Stop material with a blackout interior coating, the XD Everest ensures a rugged and light-free sleeping environment. Equipped with a high-density foam mattress, anti-condensation mat, cold weather insulation kit, aluminum honeycomb base, and crossbars for added gear. This tent redefines rooftop camping with convenience, versatility, and comfort at its core.
