BRUTE ROPES

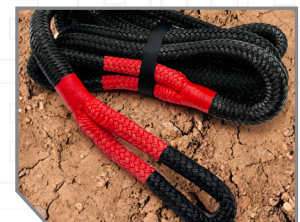

Introducing the Family of Brute Kinetic Recovery Straps – a revolutionary solution for off-road recovery that sets a new standard in durability and performance. Crafted from specially coated nylon, these ropes boasts exceptional abrasion resistance and remarkable 30% stretch capability, making it the ultimate choice for tackling challenging recovery scenarios in deep mud, snow, sand, and more, surpassing the limitations of standard tow straps. With an impressive breaking strength of up to 69,000 lbs, they are engineered for heavy-duty applications, ensuring your safety during demanding recoveries. Plus we stand by our product's reliability with a lifetime warranty, guaranteeing that this will be the last rope you ever need to purchase.

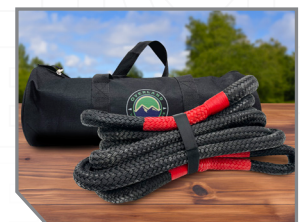

CREATED WITH SECURE DOUBLE-BRAIDED NYLON

HIGH VISIBILITY RED LOOPS

KINETIC ENERGY ALLOWS FOR SMOOTH RECOVERY

INCLUDED WEATHER TESTED OFF-ROADING STORAGE BAG

Features + Benefits

- Breaking strength up to 69,000 lbs. for heavy duty loads
- Works with both soft shackles and bow shackles
- Protected against the elements with abrasion and UV resistant coating
- 30% Stretch reduces damaging impact loads on both vehicles
- High visibility red loops increase safety and easy handling
- Includes a weather tested and extra-large off-roading storage bag
- Each Brute Kinetic Rope is backed with a Lifetime Warranty
