Introducing the Overland Vehicle Systems' Bed Extension for Pickup Trucks! Turn your truck bed into a super-functional workspace with our new Bed Extension. Universally sized for your Mid-Size or Full-Size Short Bed truck (select your truck's bed length for best fit) and turn your truck into a workhorse or an expanded recreational platform with ease.

SIDE RAILS ALLOWS CARGO SECURITY

ERGONOMIC HANDLE PROVIDES EASY ONE-HANDED OPERATION

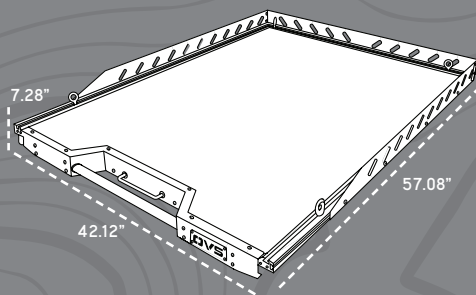

1250 LBS
PAYLOAD CAPACITY

NO ASSEMBLY REQUIRED WITH THE PRE-ASSEMBLED UNIT

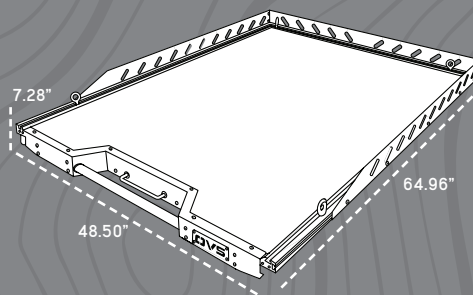

A composite base material with a rubberized diamond plate overlay offers superior performance compared to traditional cargo bed slides. The composite base ensures lightweight durability, resisting warping or cracking under heavy loads or extreme temperatures. The rubberized diamond plate overlay provides enhanced grip and protection, preventing cargo from slipping during transit while also guarding against scratches and dents. Together, these materials deliver a combination of strength, stability, and practicality that outperforms standard metal or wood-based bed slides.

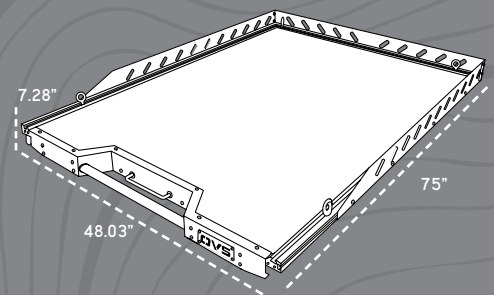

MID SIZE SHORT BED 5.0'

MID SIZE SHORT BED 5.5'

MID SIZE SHORT BED 6.5'
